INTRODUCTION

The GFF brand is well established across the World Bank Group and recognized by partners worldwide.

In 2026, following the launch of the TRANSFORM 2030 strategy, the 2026–30 investment round, and more than a decade of growth, the GFF refreshed its visual identity to reflect a more ambitious and forward-looking vision.

This brand guide outlines the updated visual identity, including logos, typography, colors, and templates, while preserving the GFF's core brand elements. It provides practical guidance to ensure consistent branding across all communications and stakeholder engagement materials.

LOGOS

The GFF logo, approved by the World Bank Group under its hosted partnership guidelines, is available in English, French, Portuguese, and Spanish. It should be used consistently across GFF materials and events to strengthen brand recognition.

The updated logo features a cleaner, more modern design with improved readability. The GFF weave symbol has also been refined to enhance clarity at smaller sizes and create a more welcoming appearance.

DISCLAIMER: To help mitigate reputational risks, please consult the Communications Team (Aissa and Richa) for guidance before using or sharing the logos.

Color Variations

Full-color is the primary use of the logo.

White color version – for use on dark background or dark areas of images.

Black color version – to be used on rare occasions where only black and white printing is possible.

Logo Languages

The logos are also available in French, Portuguese, and Spanish.

Logo Placement

For letterhead, logo is positioned inside the header on the top left.

For publications, there is more flexibility in placement.

Logo Do's & Don'ts

This page shows
a small
sampling of
things that
should never be
done
with the GFF
logo.

DO —always allow enough space around the GFF logo.
Adhere to the margins of the document when placing the logo near a page edge.

DON'T —Never place the logo uncomfortably close to the edge of a layout.

DON'T —Never stretch the logo vertically or horizontally.

DON'T —Never rotate any portion of the logo.

DON'T —Never place a white logo on a bright background...

DON'T —...or place a dark logo on a dark background.

DON'T —Never alter the alignment of the two logos.

DON'T —Never place the full color logo on a dark image area.
